TECHNICAL INFORMATION

DETERMINING BSP M THREAD SIZING

To determine the correct size of a BSP thread a “MAJOR DIAMETER” measurement across the outside of the threads as shown below needs to be taken. The MD measurement should then be cross referenced on the below table to determine the common BSP name.

MAJOR DIAMETER (MD) MM	BSP NAME MM	BSP NAME INCHES
20.995	15	½"
26.441	20	¾"
33.249	25	1"
47.803	38 / 40	1 ½"
59.614	50	2"
75.184	65	2 ½"
87.884	75 / 80	3"
113.03	100	4"
138.43	125	5"
163.83	150	6"

DETERMINING STORZ COUPLING SIZE

To determine the correct size of a STORZ coupling face a measurement between the two lugs on the coupling face as shown below must be taken.

The measurement figure “K” should then be cross referenced to table (below) to determine the “STORZ” size of the coupling face.

DISTANCE (K) MM	COUPLING SIZE MM	COUPLING SIZE "	STORZ REF
31	25	1"	D
51	38	1.5"	
66	52	2"	C
81	65	2.5"	
89	75	3"	B

DISTANCE (K) MM	COUPLING SIZE MM	COUPLING SIZE "	STORZ REF
105	90	3.5"	
115	100	4"	
133	110	4.5"	A
148	125	5"	
160	150	6"	

TECHNICAL INFORMATION

DETERMINING NAKAJIMA COUPLING SIZE

To determine correct Nakajima sizing use the below measurement diagram and table.

NAKAJIMA SIZE (MM)	NAKAJIMA SIZE (INCH)	LUG DISTANCE (MM) A	HOSETAIL Ø B (MM)
38	1.5"	61	38
50	2"	74	51
65	2.5"	92	64

SECTION 1 FIRE FIGHTING APPLIANCES

FIREOUT DRY CHEMICAL POWDER (DCP) FIRE EXTINGUISHERS

Dry Powder Fire Extinguisher Features:

CERTIFIED & APPROVED TO AS/NZS 1841.5

- ◇ Deep drawn steel cylinder with welded base and robust skirt
- ◇ Powder coated with UV resistant paint finish
- ◇ EPDM UV resistant discharge hose with dust cap
- ◇ Brass valve with pressure indicator
- ◇ 316 stainless steel handles and levers suitable for aggressive environments
- ◇ Non-Aluminium Hose Ferrules on 4.5kg & 9.0kg required for underground use
- ◇ 316 Stainless steel hose retaining clip and bands on 2.5kg, 4.5kg & 9.0kg models
- ◇ Sturdy solid stainless-steel hanging bracket, ideal for aggressive environments supplied with 4.5 kg and 9.0 kg models
- ◇ A rugged epoxy coated metal vehicle bracket comes with 1.0kg & 2.5kg models.
- ◇ Aluminium inspection tag and ring (normally removed for underground coal mines)

FIREOUT ABE Fire Extinguishers are suitable for the following Applications:

- **A Class Fires (paper, wood, textiles)**
- **B Class Fires (flammable liquid fires such as oils, paints and solvents)**
- **E Class Fires (energised electrical fires such as switchboards and electrical motors)**

PRODUCT CODE	CAPACITY	FIRE RATING	AGENT	OPERATING PRESSURE	DISCHARGE TIME (APPROX)	DIMENSIONS HEIGHT x DIAMETER	OVERALL MASS (APPROX)

SECTION 1 FIRE PROTECTION APPLIANCES

SECTION 1 FIRE FIGHTING APPLIANCES

FIREOUT CARBON DIOXIDE (CO2) FIRE EXTINGUISHERS

CO2 Fire Extinguisher Features:

CERTIFIED & APPROVED TO AS/NZS 1841.5

- ◇ High quality, lightweight Aluminium cylinder
- ◇ Powder coated with UV resistant paint finish
- ◇ High pressure discharge hose assembly with bell horn design
- ◇ 316 stainless steel handles and levers suitable for aggressive environments
- ◇ Sturdy solid stainless-steel hanging bracket, ideal for aggressive environments
- ◇ Aluminium inspection tag and ring
- ◇ Extinguishers have been fire tested for the use in B & E Class fires

FIREOUT CO2 Fire Extinguishers are suitable for the following Applications:

- **B Class Fires (flammable liquid fires such as oils, paints and solvents)**
- **E Class Fires (energised electrical fires such as switchboards and electrical motors)**

PRODUCT CODE	CAPACITY	FIRE RATING	AGENT	DISCHARGE TIME	DIMENSIONS HEIGHT x	OVERALL MASS
E35CFO	3.5 KG	10B:E	CO2	10.5 SEC	590 x 150 MM	8.9 KG
E5CFO	5.0 KG	10B:E	CO2	11 SEC	675 x 160 MM	11.9 KG

FIREOUT AIR WATER FIRE EXTINGUISHERS

Air Water Fire Extinguisher Features:

CERTIFIED & APPROVED TO AS/NZS 1841.5

- ◇ High quality, stainless steel cylinder
- ◇ Powder coated with UV resistant paint finish
- ◇ 316 stainless steel handles and levers suitable for aggressive environments
- ◇ Sturdy solid hanging bracket
- ◇ Aluminium inspection tag and ring
- ◇ Extinguishers have been fire tested for the use in A Class fires

FIREOUT Air Water Fire Extinguishers are suitable for the following Applications:

- **A Class Fires (paper, wood, textiles)**

PRODUCT CODE	CAPACITY	FIRE RATING	AGENT	DISCHARGE TIME	DIMENSIONS HEIGHT x	OVERALL MASS
E9WFO	9.0 Lt	4A	WATER	80 SEC	610 x 193 MM	12.5 KG

SECTION 1 FIRE FIGHTING APPLIANCES

FIREOUT AIR FOAM FIRE EXTINGUISHERS

Air Foam Fire Extinguisher Features:

CERTIFIED & APPROVED TO AS/NZS 1841.5

- ◇ High quality stainless steel cylinder
- ◇ Powder coated with UV resistant paint finish
- ◇ 316 stainless steel handles and levers suitable for aggressive environments
- ◇ Sturdy solid hanging bracket
- ◇ Aluminium inspection tag and ring
- ◇

FIREOUT Air Foam Fire Extinguishers are suitable for the following Applications:

- **A Class Fires (wood, paper, textiles)**
- **B Class Fires (flammable liquid fires such as oils, paints and solvents)**

FLUORINE FREE FOAM

PRODUCT CODE	CAPACITY	FIRE RATING	AGENT	OPERATING PRESSURE	DIMENSIONS HEIGHT x	OVERALL MASS (APPROX)
E9FFF	9.0 Lt	4A:10B	FLUORINE FREE ECO FOAM	1030 kPa	627 x 180 MM	12.7 KG

FIREOUT WET CHEMICAL FIRE EXTINGUISHERS

Wet Chemical Fire Extinguisher Features:

CERTIFIED & APPROVED TO AS/NZS 1841.5

- ◇ High quality stainless steel cylinder
- ◇ Powder coated with UV resistant paint finish
- ◇ 316 stainless steel handles and levers suitable for aggressive environments
- ◇ Sturdy solid hanging bracket
- ◇ Aluminium inspection tag and ring

FIREOUT Wet Chemical Fire Extinguishers are suitable for the following Applications:

- **A Class Fires (wood, paper, textiles)**
- **F Class Fires including cooking oils and fats**

PRODUCT CODE	CAPACITY	FIRE RATING	AGENT	DIMENSIONS HEIGHT x DIAMETER	OVERALL MASS (APPROX)
E2WCFO	2.0 Lt	2A:4F	WET CHEMICAL	460 x 125 MM	4.6 KG
E7WCFO	7.0 Lt	3A:4F	WET CHEMICAL	600 x 169 MM	10 KG

REGA FIRE FIGHTER BACK PACKS

REGA Back Pack Features:

- ◇ 16 Litre polyethylene tank
- ◇ Dual action brass plunger action pump
- ◇ No 8 bushfire nozzle straight jet / flat fantail
- ◇ Spaying capacity 1.25 Litres per minute
- ◇ Adjustable straps
- ◇ Dimensions 650 mm (H) x 495 mm (W)

Optional heavy duty vehicle mounting bracket

- ◇ Ensures safe and secure attachment to vehicles

PRODUCT CODE	PRODUCT DESCRIPTION
BPFF	REGA KNAPSACK 16LT RIGID PVC FIRE FIGHTER SPRAYER
HDVBRK	VEHICLE TRUCK BRACKET REGA KNAPSACK TO SUIT P/N BPFF

RBPPO	BACKPACK PUMP ASSEMBLY ONLY (ALT P/N 109727)
BPFOK	BACK PACK FIRE FIGHTER 16LT PVC OVERHAUL KIT (ALT P/N 109778)
SEE PAGE 106 FOR A FULL LIST OF REGA KNAPSACK SPARE PARTS	

COLLAPSIBLE FIRE FIGHTER BACK PACKS

Collapsible Fire Fighter Back Pack Features:

- ◇ 15—16 Litre capacity
- ◇ HF welded flexible tank manufactured from UV resistant reinforced material
- ◇ Highly effective double action hand pump with jet/fog functions
- ◇ Ergonomic design with adjustable shoulder and waist straps

PRODUCT CODE	PRODUCT DESCRIPTION
BPFFSY	BACK PACK WATER SPRAYER YELLOW KNAPSACK COLLAPSIBLE
BPFFS	BACK PACK WATER SPRAYER RED KNAPSACK COLLAPSIBLE
BPFFSPO	BACK PACK 16LT KNAPSACK SOFT DUAL ACTION PUMP ONLY

FIRE BLANKETS

Fire Blanket Features:

- ◇ Entire range complies with AS/NZISS 3504
- ◇ Available with soft plastic or nyplon material cases
- ◇ Mounting eyelet on all bags
- ◇ Effective for smothering oxygen supply to small fires that may occur in kitchens or on clothing

PRODUCT CODE	FIRE BLANKET DIMENSIONS	CASE MATERIAL
FB11	1000 x 1000 MM	NYPLON
FB11P	1000 x 1000 MM	SOFT PLASTIC

SEE PAGE 71 FOR FIRE BLANKET SIGNAGE

SECTION 1 FIRE PROTECTION APPLIANCES

FIREOUT FIRE HOSE REELS

Fireout Fire Hose Reel Features:

- ◇ Heavy duty 36m fast-fit hose reel
- ◇ Proven design with simple operation / low maintenance cost
- ◇ Stainless steel model available—ideal for marine and other aggressive environments

Meets or Exceeds AS 1221

PRODUCT CODE	DESCRIPTION
HR3619	HOSE REEL 36 MTR X 19MM QUICK-FIT FIXED
HR3619SS	HOSE REEL 36 MTR X 19MM 304 STAINLESS STEEL
HR3625	HOSE REEL 36 MTR X 25MM WASH DOWN

FIRE DEPOT BINS

Australia Wide Fire Supplies provide a fully customizable solution for Fire Depot Bins and associated equipment.

Standard Features:

- ◇ Heavy duty 240Lt wheeled bin c/w standard wheels
- ◇ Large mine reflective "FIRE DEPOT" front sign and candy-stripe markings
- ◇ Class H lay-flat hoses c/w couplings attached by wire whipping
- ◇ Breeching control to suit fittings as required
- ◇ Branchpipes and nozzles, both brass and PVC as required
- ◇ Hydrant spanners and brass adaptors as required
- ◇ Removable equipment cage to help organize and separate accessories from fire hoses plus improved access
- ◇ Fire hose straps and clear fire hose covers to keep hoses protected
- ◇

Common Optional Extras:

- ◇ Extra side "FIRE DEPOT" signage as required
- ◇ Dust seals to help prevent ingress of dust and contaminants
- ◇ Lid latch & pin assembly to prevent lid being blown open and contents being exposed to dirt and dust
- ◇ Internal contents labels by order as per client requirements
- ◇ External fire extinguisher mounting brackets, extinguishers and covers
- ◇ Over-sized wheels ideal for rough terrain

PRODUCT CODE	DESCRIPTION
FBO	MINES FIRE DEPOT BOX WHEEL BIN WITH FRONT & SIDE LABELS
FBOLRS	MINES RESCUE DEPOT WHEEL BIN WITH LABELS PIN AND SEAL
FBEH	MINE FIRE DEPOT BOX EQUIPMENT HOLDER BASKET

Fire depot bin requirements vary from site to site. Please contact us to discuss your requirements

MOBILE FIRE EXTINGUISHERS DCP AB:E

DCP AB:E Mobile Extinguisher Features:

- ◇ Self contained mobile trolley mounted unit
- ◇ Operating pressure of 1500kPa
- ◇ Range of 3-5 mtrs
- ◇ Rating 10A80B:E
- ◇ Large oversize rear trolley wheels
- ◇ Lockable castor wheels on front of trolley
- ◇ 7m long hose & nozzle assembly

PRODUCT CODE	DESCRIPTION	WEIGHT (APPROX)	BODY DIAM (APPROX)	HEIGHT (APPROX)

MOBILE FIRE EXTINGUISHERS FOAM

Foam Mobile Extinguisher Features:

- ◇ Self contained mobile trolley mounted unit
- ◇ Operating pressure of 1030kPa
- ◇ Performance range 3 - 5 mtrs
- ◇ Foam type C6 or Fluorine Free option below
- ◇ Large oversize rear trolley wheels
- ◇ Lockable castor wheels on front of trolley
- ◇ 7m long hose & nozzle assembly

FIRE HOSES AS2792 SOLD BY THE MTR

Australia Wide Fire Supplies offer a comprehensive range of high quality Australian made lay flat fire hoses all of which are manufactured and certified to AS 2792. Standard lay flat fire hose lengths are 30 metres however other lengths are available on request. Hoses are available as bare lengths or can be supplied with a comprehensive range of couplings to your specification. All couplings supplied with hoses can be wire whipped or double band-it clamped and can be supplied with or without pressure test and certificate subject to your requirements.

Class M General Purpose:

- ◇ Polyester construction with internal lining
- ◇ Popular choice for domestic and commercial applications 1500kPa working pressure
- ◇ Available in standard and percolating
- ◇ Mildew resistant—can be stored wet

Class M Coated:

- ◇ Polyester construction with internal lining
- ◇ Additional protected polyurethane coating provides chemical and abrasion resistance
- ◇ Popular choice for domestic and commercial applications 1500kPa working pressure
- ◇ Maintenance free - can be stored wet

Class M Percolating:

- ◇ Polyester construction with internal lining
- ◇ Precision engineered percolating function available in low, medium and high grades depending on application
- ◇ Light weight making it ideal for cartage into inaccessible locations
- ◇ 1500kPa working pressure
- ◇ Maintenance free - can be stored wet

SECTION 1 FIRE FIGHTING APPLIANCES

FIRE HOSES AS2792 SOLD BY THE MTR

Class H Heavy Duty:

- ◇ Approved for use by FRNSW, CFA & ADF
- ◇ Heavy duty spun polyester construction with internal lining suited for extreme fire fighting conditions
- ◇ High working pressure of 2100kPa
- ◇ Mildew resistant - can be stored wet

Class H Heavy Duty Percolating:

- ◇ Approved for use by FRNSW CFA & ADF
- ◇ Precision engineered percolating function available in low, medium and high grades depending on application
- ◇ Heavy duty spun polyester construction with internal lining suited for extreme fire fighting conditions
- ◇ High working pressure of 2100kPa
- ◇ Mildew resistant - can be stored wet

Class H Heavy Duty Extruded (Type 3):

- ◇ High pressure TYPE 3 fire hose
- ◇ Spun polyester construction with PVC Nitrile internal lining and precision engineered extruded synthetic rubber outer cover
- ◇ High resistance to chemical exposure and abrasion
- ◇ High working pressure of 2100 kPa with burst pressure of 5250kPa
- ◇ Maintenance free - long service life

SECTION 1 FIRE FIGHTING APPLIANCES

WATER JEL FIRE BLANKETS

WATER JEL Fire Blankets offer one of the quickest, easiest and most direct methods of administering emergency first aid burn care. When placed on a victim, gel-soaked blankets ease the pain, cool the burn, and help protect against airborne contamination all in one easy step. They can also be used to extinguish flames on a victim and put out small fires.

The Fire Blankets are composed of a 100% worsted wool carrier with an intercellular weave capable of absorbing up to 13x its own weight. The wool is soaked in a water-based, water soluble gel that is bacteriostatic and biodegradable. Fire Blankets have a 5 year shelf life.

CODE	DESCRIPTION
FBWGS	FIRE BLANKET WATER JEL SMALL 760MM x 910MM
FBWG1518	FIRE BLANKET WATER JEL MEDIUM 1520MM x 1830MM
FBWG1824	FIRE BLANKET WATER JEL LARGE 1830MM x 2440MM

VEHICLE MOUNT FIRE HOSE REEL

Designed to be mounted on light trucks or trailers, this hose reel incorporates high quality, durable core components in an economical package suitable for rural land owners and community fire trailers. The hose reel is easily deployed and operated by a single person.

Designed to be used with portable fire fighting pumps, the hose reel has a maximum working pressure of 20bar (2000 kPa) and is easily connected with a 25mm (1") BSP male brass inlet fitting.

Fitted with a 30m long premium rubber hose to resist kinking and a plated brass jet, spray, fog nozzle this unit is fully pressure tested once assembled.

CODE	DESCRIPTION
HR3019VM	HOSE REEL 30M X 19MM VEHICLE MOUNT

SECTION 1 FIRE PROTECTION APPLIANCES

SECTION 2 EMERGENCY LIGHTING LED

EMERGENCY LIGHTING LED

Our range of emergency & exit lighting products are sourced from an Australian based specialized lighting company who have extensive experience in the electrical lighting wholesale industry.

The range makes use of high quality major components, rather than locally produced Chinese components. In particular, our main integrated circuits are sourced from US and European suppliers, while our LED's are high quality, long life Bridge Lux components sourced from the US.

Our plastic components are made from Polycarbonate (unlike other suppliers who use ABS plastics) resulting in Much stronger and longer lasting components. Polycarbonate shells are also much more fire-resistant than ABS shells.

All our products use leading edge technology Lithium batteries produced by one of the world's largest and most respected battery manufacturers.

All lights have been certified by either Global Mark or SAI global as meeting AS/NZ 2293. In addition, all lighting complies with EMC requirements.

Our entire range of Emergency Exit Lighting comes with a 3 year warranty*

* 3 Year Warranty applies to all components other than the battery which has an industry benchmark 2 year warranty

EMERGENCY EXIT LIGHTS LED

CODE	DESCRIPTION
ELE1610	EMERGENCY EXIT LIGHT UNIVERSAL FIT PREMIUM LED

Key Features

- Quick fit bracket for fast ceiling and wall mount
- 50,000hr LED - Energy efficient & long life
- 3 hour runtime in emergency mode
- Low 3w standby power consumption
- Maintained
- Large terminal block for easy installation
- Easy testing & maintenance
- Designed and manufactured to AS/NZS2293.3
- Supplied with pictograph running-man and pictograph exit decals plus diffuser for single sided wall mounting
- 3 year warranty*

VOLTAGE	CLASSIFICATION	FREQUENCY	CHARGING TIME	DURATION	OPERATING TEMP	BATTERY CAPACITY

SECTION 2 EMERGENCY LIGHTING LED

EMERGENCY DOWNLIGHT LED

CODE	DESCRIPTION
ELE6030	EMERGENCY DOWNLIGHT LED FLUSH FIT WHITE

Key Features:

- 50,000hr LED - Energy efficient & long life
- 2 hour runtime in emergency mode
- Low 3w standby power consumption
- Maintained
- Easy testing & maintenance
- 1.2M flex and plug for easy install /replacement
- Designed and manufactured to AS/NZS2293.3
- 3 year warranty*

EMERGENCY TWIN SPOTLIGHT LED

CODE	DESCRIPTION
ELE1704	EMERGENCY TWIN SPOTLIGHT LED

Key Features:

- 50,000hr LED - Energy efficient & long life
- 3 hour runtime in emergency mode
- Low standby power consumption
- Non - Maintained
- Easy testing & maintenance
- 1.2M flex and plug for easy install /replacement
- Designed and manufactured to AS/NZS2293.3
- Wall mount IP65 Rated
- 3 year warranty*

RESOLUTE POLY CABINETS IP59K RATED

RESOLUTE POLYPROPYLENE CABINETS FOR EXTREME ENVIRONMENTS

The **RESOLUTE** range of cabinets are designed to meet the requirements of harsh industrial environments. Injection molded Polypropylene construction coupled with high quality nylon and polycarbonate fixtures provide high resistance to the effects of fuels, oils, UV rays as well as water and dust ingress achieving a **IP59K** rating.

TÜV RHEINLAND Certification:

- Flammability (Flame Speed)
- Dust and water resistance (IP59K)
- Resistance to hydrocarbons and lubricating oils
- Accelerated weathering (UV rays)
- Compression (12.000 N)

RESOLUTE POLY CABINETS IP59K RATED

RESOLUTE IP59K RATED DUAL EXT CABINETS

Utilising the same materials and features of the RESOLUTE single extinguisher cabinet range, these dual cabinets are ideal for use in harsh environments where additional protection is required.

TÜV RHEINLAND Certification:

- Flammability (Flame Speed)
- Dust and water resistance (IP59K)
- Resistance to hydrocarbons and lubricating oils
- Accelerated weathering (UV rays)
- Compression (12.000 N)

RESOLVE AND CRYSTAL POLY CABINETS

RESOLVE POLYPROPYLENE LIGHTWEIGHT FUNCTIONAL

Offering superior protection over traditional metal cabinets, the RESOLVE range of cabinets offer added protection from dust water and UV rays. Utilizing injection molded Polypropylene the RESOLVE cabinet range is lightweight and durable. The unique design also allows for cabinets to be staked inside each other with covers removed making them the “smart” logistical choice.

NOTES

SECTION 7 VEHICLE & GENERAL EXTINGUISHER BRACKETS

SECTION 8 FLAMMABLE LIQUID STORAGE CABINETS

FLAMMABLE LIQUID STORAGE CABINETS

QUALITY MANUFACTURED TO EXCEED AS 1940 – 2004

- ◆ UNIQUE DUAL SEAL DESIGN FOR ADDED SAFETY
- ◆ UNIQUE THREE-POINT LATCHING SYSTEM AND FLUSH MOUNT KEY LOCK HANDLE
- ◆ PATENTED AUTOMATED SEQUENTIAL CLOSING & LOCKING MECHANISM ON ALL 2 DOOR MODELS WITH ALL ALLOY CONTACT POINTS ELIMINATING SPARK RISK
- ◆ TWO STANDARD 50MM DIAMETER FLASH ARRESTORS AIDS SAFER FUME EXTRACTION
- ◆ UNIQUE SHEER-WELD FINISH WITH NO EXPOSED RIVETS ELIMINATES CATCH RISK
- ◆ DOUBLE WALLED THERMAL BARRIER
- ◆ 180 DEGREE DOOR OPENING ON ALL MODELS FOR IMPROVED ACCESS
- ◆ OPTIONAL EARTHING POINT AND CABLE SUPPLIED WITH ALL MODELS

SECTION 8 FLAMMABLE LIQUID STORAGE CABINETS

FLAMMABLE LIQUID STORAGE CABINETS

CABINET FEATURES

- ◆ ALL MODELS COME WITH FULLY ADJUSTABLE AND REMOVABLE SHELVING
- ◆ 160L & 250L MODELS COME WITH UNDER SUMP SKIDS ALLOWING MOBILITY BOTH EMPTY AND FULLY LOADED
- ◆ 160L & 250L MODELS COME WITH UNDERSIDE SAFETY STRAPPING TO PREVENT CABINET TIPPING
- ◆ 30L & 100L MODELS COME WITH UNDERSIDE CORNER LEVELLING BOLTS
- ◆ 30L & 100L MODELS SUITABLE FOR UNDER-BENCH STORAGE
- ◆ ETCH UNDERCOAT WITH HIGH GLOSS POWDER COAT FINISH
- ◆ SINGLE MOVING PART ON CLOSING MECHANISM REDUCES MAINTENANCE
- ◆ YELLOW CABINETS AVAILABLE FOR CLASS 2 & 3: FLAMMABLE SUBSTANCES
- ◆ CLASS 8: CORROSIVE (Blue), CLASS 6.1: POISONS/TOXIC (White), CLASS 5.1: OXIDIZING AGENT (Yellow), CLASS 5.2: ORGANIC PEROXIDE SUBSTANCES (Yellow) AND CLASS 9: MISCELLANEOUS CABINETS (Yellow) ALSO AVAILABLE

STAT-X FIRE SUPPRESSION SYSTEMS

Stat-X Aerosol Fire Suppression

Your Choice for Special Hazard Fire Protection

Stat-X devices are termed condensed aerosol agent generators because they generate an ultra-fine suspension of highly ionized potassium fire fighting particles upon actuation. Suitable for machinery spaces, unoccupied spaces and normally unoccupied spaces **Stat-X** generators come in a variety of sizes. Actuation can take place by electrical, thermal or manual activation and upon discharge fills the protected area with a soft suspension of **Stat-X** agent without “super-pressurizing” the protected space and inhibits the fire chain reaction.

Due to the minute particle size, agent particles remain suspended for an extended period of time to prevent re-ignition while also absorbing heat from the fire.

Post fire clean-up is simple and replacement generators can be reinstalled immediately meaning virtually no unprotected period.

Carrying key approvals worldwide, **Stat-X** is by far the most efficient fire suppression agent by weight currently available.

Key Features

- ⇒ **Highly effective** - rapid class A & B fire suppression
- ⇒ **Compact** - weight & space saving up to 90% compared to gaseous systems
- ⇒ **Easy to install** - non-pressurized, no cylinders or pipe work necessary
- ⇒ **Virtually maintenance free** - SS construction, 10 year service life
- ⇒ **Cost saving** - significant install & maintenance savings over normal systems
- ⇒ **Minimal post fire downtime** - simply replace generators and re arm system
- ⇒ **Non-corrosive, non-conductive** - extensive testing on many materials
- ⇒ **Non-toxic** - approved for unoccupied and normally unoccupied areas
- ⇒ **Environmentally friendly** - zero ozone depleting & global warming potential
- ⇒ **Extensive testing & approvals** - including UL, CSIRO & numerous marine
- ⇒ **Selected by US and Australian Military** - for vehicle and marine applications

VEHICLE MOUNT FIRE HOSE REEL

Designed to be mounted on light trucks or trailers, this hose reel incorporates high quality, durable core components in an economical package suitable for rural land owners and community fire trailers. The hose reel is easily deployed and operated by a single person.

Designed to be used with portable fire fighting pumps, the hose reel has a maximum working pressure of 20bar (2000 kPa) and is easily connected with a 25mm (1") BSP male brass inlet fitting.

Fitted with a 30m long premium rubber hose to resist kinking and a plated brass jet, spray, fog nozzle this unit is fully pressure tested once assembled.

CODE	DESCRIPTION
HR3019VM	HOSE REEL 30M X 19MM VEHICLE MOUNT

BUSHFIRE HOSE KITS

Our hose kits are available with either alloy Storz couplings or brass BSP couplings in both 25mm and 38mm sizes and are suitable for use with most fire fighting pumps.

Hose kits are constructed using quality lined lay flat hose material meeting international approvals attached to couplings using bandit clamps and protective hose sheaths.

Kits are supplied with a triple purpose jet, spray, fog hose nozzle, hose strap and poly storage bag. Multiple hoses can be joined together to achieve additional reach.

AWFS GENERAL TERMS & CONDITIONS OF SALE

GENERAL TERMS AND CONDITIONS OF SALE

ANY REFERENCE TO "THE SUPPLIER" REFERS TO AUSTRALIA WIDE FIRE SUPPLIES ABN 80 393 915 621. ANY REFERENCE TO "THE CUSTOMER" REFERS TO THE PURCHASER OF GOODS. IF YOU DO NOT UNDERSTAND ANY OF THE TRADING TERMS AND CONDITIONS CONTAINED IN THIS DOCUMENT IT IS RECOMMENDED THAT YOU SEEK INDEPENDENT LEGAL ADVICE..

1. **Acceptance** – Any instructions received by the Supplier from the Customer in relation to the supply of goods shall constitute acceptance of the terms and conditions contained herein.
2. **Payment terms** – The agreed trading terms are 30 days. Payment is due on all invoices 30 days from the date on the invoice.
3. **Account keeping fees** – The Customer hereby agrees and acknowledges that at the absolute discretion of the Supplier, an account keeping fee of 2% per month, or the maximum rate permissible by law, may be levied on any overdue amounts that remain unpaid by the required due date. The Customer agrees that this fee represents a reasonable pre estimate of the loss suffered by the Supplier in relation to overdue amounts.
4. **Dishonour fees and collection costs** – The Customer agrees to indemnify the Supplier for any dishonoured cheque fees incurred. Further, in the event that the Customer's account is in default of these trading terms the Customer will also indemnify the Supplier against its collection fees and any reasonable legal costs incurred by the Supplier, provided the Customer has been provided reasonable opportunity to remedy the default and has failed to do so.
5. **Stop supply** – The Supplier may withdraw credit facilities to the Customer at any time upon reasonable notice. Without limiting the Supplier's rights to withdraw credit, the Supplier reserves the right to stop supply and place the account on hold when the Customer is in default of the Trading Terms, until such time as the Customer remedies the default and the Supplier agrees to recommence supply.
6. **Application** – These Trading Terms apply to all transactions in relation to which the Customer is supplied goods and or services (including on credit). If any future contract between the Supplier and the Customer is inconsistent with these Terms of Trade, then these Trading Terms will apply unless the subsequent contract refers to and specifically alters these Trading Terms in writing.
7. **Variation to Customer details** – Should there be any variation to any of the information supplied by the Customer in this application or in the structure of the Customer's business (such as the conversion to or from a company or trust or the appointment of new directors), the Supplier shall be notified in writing. Until a new application form is signed and approved in writing by the Supplier, then the original application and those person(s) who signed as guarantor(s) shall remain liable to the Supplier as though all goods and services were supplied to the original Customer.
8. **Amendments** – The supplier reserves the right to amend these Trading Terms and will publish any amended version of the Trading Terms on its website. The Customer will be provided with reasonable notice prior to any changes of the Trading Terms. In the event that the Customer reasonably considers that the variation causes the Customer a material detriment, the Customer may terminate these Trading Terms without penalty.
9. **Assignment** – The Supplier shall be entitled at any time to assign its rights under these Trading Terms to its successors, nominated transferees or assigns, (including but not limited to, where applicable, personal guarantees), and that these Trading Terms shall not be in any way affected or discharged pursuant to such assignment.
10. **Retention of title** – Until ALL INVOICES are paid in full, and ALL MONIES receipted and cleared, ownership of the goods remains with the Supplier, but the risk passes to the Customer on delivery. Delivery shall occur if the Supplier or its agent delivers, on delivery, and or if the Customer or its agent (s) takes delivery, at that point of delivery. Until the Supplier is paid in full, the relationship of the Customer to the Supplier shall be fiduciary in respect of the goods and the Customer shall hold the goods as bailee only for the Supplier. The Customer shall store the goods separately from its own until title has passed to the Customer.
11. **Recovery** – Should the goods be on sold to a third party before payment, or in the event of the Appointment of an Administrator, Controller, Managing Controller, receiver or Receiver Manager (as those terms are used in the *Corporations Act 2001* (Cth)), or entry into an Informal/Formal Deed of Arrangement under the *Bankruptcy Act 1966* (Cth) by the Customer, or any other insolvency event of the Customer, then the Customer hereby assigns to the Supplier its right of recovery of payment from the third party. The money(ies) resulting from the sale of the goods are to be specifically earmarked and placed in a separate account on trust for the Supplier, until payment in full is made to the Supplier for the cost of the goods only, to guarantee clear passage of ownership to the third party innocent purchaser.
12. **Retaking Possession** – In the event the Customer is in default of the Trading Terms, and after failing to remedy any breach of the Trading Terms after notice and a reasonable period of time, then the Supplier may upon notice to the Customer, enter upon the premises where the goods are reasonably expected to be stored for the sole purpose of retaking possession of the said goods. The Customer indemnifies and holds harmless the Supplier, its servants or agents in relation to loss or damage as a result of the retaking of possession of said goods. Further, in the event the supplier exercises its right of retaking possession of the said goods, the Customer grants power of sale to the Supplier to resell the said goods and the Customer acknowledges that any shortfall owing after the said goods are resold will be the responsibility of the Customer. Notwithstanding any other provision of these Trading terms, it is expressly agreed by the Customer that the Supplier may sue for the price of all goods delivered to the Customer or for damages, notwithstanding that ownership in those goods has not been passed to the Customer.
13. **Delivery** – Deliveries shall be made during normal business hours. Deliveries required outside normal business hours will be delivered upon the request of the Customer, and any additional charges will be the sole responsibility of the Customer. In the event the Customer or the Customer's agent is not on site to accept delivery, then the Customer must pay the cost for redelivery of any goods. Any date of delivery quoted in any correspondence, quotation or invoice is an estimated delivery time frame only and is subject to industrial disturbances, delay in transit, damage to goods in transit, shortage of goods and any other cause beyond reasonable control of the Supplier.
14. **PPSR** – The Supplier reserves the right to register any security interest provided by the Customer ("the grantor") which creates a performance obligation to secure payment owed by the Customer to the Supplier pursuant to the Personal Property Securities Act 2009 (Cth).

AWFS GENERAL TERMS & CONDITIONS OF SALE

- 15. Service of Documents** – The Customer acknowledges that service of all documents will be by prepaid postal addressed envelope to the trading address nominated on the application unless a new address is provided by the Customer and such new address is acknowledged by return in writing from the Supplier, or another nominated address at the discretion of the Supplier. The Customer expressly acknowledges that service is deemed to be effected after the expiration of 2 business days from the date of posting of the documents.
- 16. Access to site** – The Customer at all times is responsible to ensure suitable access to its site for delivery of goods. The Customer indemnifies and saves harmless the Supplier, and or its servants or agents any loss or damage, in the event the Customer fails to provide suitable access to the site for delivery, or whilst on site delivering, except to the extent that any loss or damage is caused or contributed to by the negligence of the Supplier or its servants or agents.
- 17. Price** – Unless a separate agreement is in place all goods are sold at the price current at the time of purchase as determined by the Supplier. The price of the goods is at the Suppliers works. Costs and charges for freight and handling at the point of delivery to the Customer or Customer's agent are payable by the customer unless otherwise stated on the quotation. All prices may be subject to change without notice. If requested the Customer will be provided a quotation for the purchase price of the goods, and the costs for delivery at the time of ordering. All quotes remain current for 14 days only from the date of the quotation or as otherwise stated on quotation.
- 18. Financial information** – The Customer agrees to provide financial information as is reasonably required by the Supplier from time to time, for the assessment of current and future credit limits only. The Supplier and the Customer further agree that such information shall be treated as strictly confidential and shall not be disclosed to any third party(ies) without the express written permission of the Customer.
- 19. Claims** – It is the responsibility of the Customer to carefully inspect the goods immediately when they are delivered. Claims that the goods fail to meet the guarantees under the *Australian Consumer Law* must be made in accordance with the requirements of that legislation. Claims that the products fail to meet the manufacturer's warranty, suitable quality standard, or claims relating to incorrect goods shipped or incorrect quantities received will only be recognised if made in the first instance by phone within 72 hrs of delivery, and also in writing within 7 days of delivery. Claims outside this period will be at the absolute discretion of the Supplier, and its decision final and binding on the Customer. All claims that the goods fail to meet the manufacturer's warranty or suitable quality standard must be returned in original condition and packaging and complete in every detail and such goods will only be accepted if the freight is prepaid by the Customer unless other agreements have been made in writing.
- 20. Returns & cancellations** – In the event the Customer elects to return goods or cancel goods on order for any reason other than failure to comply with *Australian Consumer Law* they must first seek written return authorisation from the Supplier. Acceptance of returns not covered under *Australian Consumer Law* will be at the absolute discretion of the Supplier and may at the absolute discretion of the supplier attract a 10% handling and restocking fee on the invoice amount involved. The Customer agrees that this represents a reasonable pre estimate of the loss that the Supplier will suffer in restocking and administrative charges.
- 21. Special Orders** – Special orders attract a 50% deposit which will be debited to the Customer's account upon receipt of a written order for goods outside the Supplier's normal stock lines, or for goods which are specifically modified to meet the customers' requirements. The classification of what stock lines are normally held and those not held by the Supplier and what constitutes a modification is at the absolute discretion of the Supplier and may change from time to time. NOTE unless goods breach the consumer guarantees under *Australian Consumer Law*, no return of, or cancellation of special orders will be accepted.
- 22. Warranties** – All goods are warranted by the manufacturer's warranty, if any, as is furnished by the manufacturer thereof. To the extent permitted by law, all implied warranties are expressly excluded. Nothing in these Trading Terms shall be read or applied so as to exclude, restrict or modify, or have the effect of excluding, restricting or modifying, any condition, warranty, guarantee, right or remedy implied by law (including the *Competition and Consumer act 2010* (CTH)) and which by law cannot be excluded, restricted or modified.
- 23. Damages** – To the extent permitted by law, if the Customer is entitled to the benefit of any implied terms which cannot be excluded, the Supplier's liability shall be limited, as its option in the supply of goods to:
- The replacement of the goods or the supply of equivalent goods:
 - The payment of the costs of replacing the goods or acquiring the relevant goods, or the payment of having the goods repaired:
 - In the case of services, the resupply of the services: or
 - The payment of the cost of having the services performed again
- 24. Limit & liability** – Subject to the Australian Consumer Law, the Supplier shall not be liable for any claims, loss, expense whatsoever, howsoever arising, or in any event in any way whatsoever for any contingent, consequential direct/indirect special, or punitive damages arising in relation thereto, and the Customer acknowledges this express limit or liability and agrees to limit any claim accordingly. Further the Supplier shall not be responsible directly or indirectly for any consequential loss or damage, or for the maintenance, use or operation of the product by the Customer, or to any third party, or from any failure of the product whether defective or not.
- 25. GST** – Expressions set out in italics in this clause 25 bear the same meaning as those expressions in the GST law.
- All payments have been set or determined without regard to the impact of GST.
 - Subject to clause 25.D if the whole or any part of a payment by a party (including amounts referred to in 25.B) is the consideration for a *taxable supply*, the GST amount in respect of the payment must be paid to the Supplier of the *taxable supply* as an additional amount, at the same time and in the same manner as the payment is otherwise payable or as otherwise agreed in writing.
 - If a payment due under this agreement is a reimbursement or indemnification by one party of an expense, loss or liability incurred by the other party, the payment will exclude any GST forming part of the amount to be reimbursed or indemnified to the extent to which the other party can claim an *input tax credit*.
 - A party's obligation to make payment under clause 25.A is subject to a valid tax invoice being delivered to the party liable to pay for the *taxable supply*.

AWFS GENERAL TERMS & CONDITIONS OF SALE

- E Where the Supplier has become subject to any penalties or interest because of late payment by the Supplier to the Australian Taxation Office of any GST amount and that late payment is a result of the failure of the *recipient* to comply with the terms of this clause 26, the *recipient* must pay to the Supplier an additional amount on demand equal to the amount of those penalties and interest.
- F The *recipient* must indemnify the Supplier on demand in respect of all loss or damage arising from a breach by the *recipient* of its obligations under this clause 25.

26. **Environmental Requirements** – The Customer confirms and acknowledges that it has made all relevant enquiries in relation to all responsibilities conferred upon the Customer, by all relevant legislation, relating to storage of, use of, and disposal of any or all products supplied by the Supplier.
27. **Insurance** – NO INSURANCE IS PROVIDED BY THE SUPPLIER. The Customer expressly acknowledges that insurance of all goods is the responsibility of the Customer upon dispatch from the Supplier's premises.
28. **Supply** – The Customer acknowledges that possession of the Suppliers pricelist, possession of an application for credit from the Supplier, an approved credit facility with the Supplier, or a quotation from the Supplier, does not constitute an agreement from the Supplier to supply goods or services to the Customer. The Supplier reserves the right to refuse to accept any purchase order from any Customer for any reason.
29. **Jurisdiction** – The Customer acknowledges that this contract shall be governed by the Laws of New South Wales, and the Customer hereby agrees to submit to the non-exclusive jurisdiction of the Courts of that State.
